

South East Open Cut Project  
&  
Modification to the  
Existing ACP Consent

**ENVIRONMENTAL ASSESSMENT  
REPORT**

**Volume 1**

November 2009

Preparation and submission of Environmental Assessment report prepared  
under Part 3A of the Environmental Planning and Assessment Act 1979

**EA Report prepared by:**

**Name:** Jonathan Berry Alan Wells

**Qualifications:** BSc(Hons) BA; CPP; T&CP (Ord4), FAICD

**Address:** Wells Environmental Services  
Level 1,  
3/ 95 High Street,  
Maitland NSW 2323

**Major Project Application:** 08\_182

**Applicant's name** Peter Barton  
Ashton Coal Operations Pty Limited  
ABN 22 078 556 500

**Applicant's address:** Glennies Creek Road,  
Camberwell. NSW. 2330.

**Land to be developed:** Those lands described within Appendix 1A.

**Proposed development:** Construction and operation of the South East Open Cut coal mine and associated facilities and the modification of the existing ACP development consent.

**Environmental Assessment**  An Environmental Assessment Report is attached that addresses those matters contained in the Director-General Requirements dated 19 May 2009 pursuant to Section 75W of the Environmental Planning and Assessments Act, 1979.

**Certification:** Jonathan Berry and Alan Wells of Wells Environmental Services Pty Limited certify that the Environmental Assessment Report for the proposed construction and operation of the South East Open Cut coal mine and associated facilities and the modification of the existing ACP development consent DA 309-11-2001-i of the Ashton Coal Project contains relevant information that is neither false nor misleading.

**Signature:**

 

**Name:** Jonathon Berry Alan Wells  
**Date:** 21 November 2009 21 November 2009

## Environmental Assessment Contents

**Volume 1** – Environmental Assessment Main Text and Appendices 1 – 2.

**Volume 2** – A3 Book of Plans.

**Volume 3** – Appendices 3 – 5.

**Volume 4** – Appendices 6 – 11.

**Volume 5** – Appendices 12 – 18.

### Volume 1 Contents

<b>EXECUTIVE SUMMARY</b>	<b>ES-1</b>
<b>1 INTRODUCTION</b>	<b>S1-3</b>
1.1 THE PROJECT	1-3
1.1.1 Project Need	1-3
1.1.2 Objectives	1-3
1.2 THE PROPONENT	1-5
1.3 PROJECT BACKGROUND	1-5
1.4 LOCATION AND LAND DESCRIPTION	1-6
1.5 ENVIRONMENTAL ASSESSMENT	1-6
1.5.1 Project Alternatives	1-6
1.5.2 Risk Assessment	1-6
1.5.3 Environmental Assessment Requirements	1-6
1.6 STRUCTURE OF ENVIRONMENTAL ASSESSMENT REPORT	1-12
1.7 STUDY TEAM	1-13
1.8 ACKNOWLEDGEMENTS	1-14
<b>2 PROJECT APPROVAL FRAMEWORK</b>	<b>S2-3</b>
2.1 INTRODUCTION	2-3
2.2 CORE NEW SOUTH WALES LEGISLATION	2-4
2.2.1 Environmental Planning and Assessment Act	2-4
2.2.2 Permissibility	2-6
2.2.3 Environmental Planning Instruments	2-7
2.3 RELATIONSHIP TO OTHER NEW SOUTH WALES LEGISLATION	2-9
2.3.1 Section 75U EP&A Act 1979	2-9
2.3.2 Section 75V EP&A Act 1979	2-10
2.3.3 Mining Act 1992	2-10
2.3.4 Protection of the Environment Operations Act 1997	2-11
2.3.5 Roads Act 1993	2-11
2.3.6 Water Act 1912 and Water Management Act 2000	2-11
2.3.7 Crown Lands Act 1989	2-12
2.3.8 Coal Mine Health and Safety Act 2002	2-12
2.3.9 Fisheries Management Act 1994	2-12
2.3.10 Heritage Act 1977	2-12
2.3.11 National Parks and Wildlife Act 1995	2-12

2.3.12	<i>Native Vegetation Act 1995</i>	2-13
2.4	COMMONWEALTH LEGISLATION .....	2-13
2.4.1	Environment Protection and Biodiversity Conservation Act 1999	2-13
2.5	SECTION 94 CONTRIBUTION AND VOLUNTARY PLANNING AGREEMENT .....	2-13
2.6	SUMMARY OF LICENCES, APPROVALS AND PERMITS.....	2-13
<b>3</b>	<b>STAKEHOLDER AND COMMUNITY CONSULTATION</b> .....	<b>S3-3</b>
3.1	INTRODUCTION .....	3-3
3.2	INDEPENDENT REVIEW OF CUMULATIVE IMPACTS ON CAMBERWELL VILLAGE.....	3-3
3.3	ACP COMMUNITY CONSULTATIVE COMMITTEE .....	3-4
3.4	COMMUNITY CONSULTATION .....	3-4
3.4.1	Newspaper Notices	3-5
3.4.2	Newsletters	3-5
3.4.3	Website and 1800 Telephone Line	3-5
3.4.4	"One on One" Discussions	3-5
3.4.5	Consultation with Affected Landholders	3-5
3.4.6	Community Information Sessions	3-6
3.4.7	Community Surveys	3-6
3.4.8	Future Community Consultation	3-7
3.5	CONSULTATION WITH NEIGHBOURING LEASE HOLDERS .....	3-7
3.6	CONSULTATION WITH THE ABORIGINAL COMMUNITY .....	3-7
3.7	CONSULTATION WITH SINGLETON COUNCIL.....	3-8
3.8	CONSULTATION WITH GOVERNMENT AUTHORITIES .....	3-9
3.9	CONSULTATION WITH RAIL AUTHORITIES .....	3-11
3.10	CONSULTATION WITH UTILITY SERVICE PROVIDERS .....	3-11
3.11	RISK ANALYSIS.....	3-12
3.12	PUBLIC EXHIBITION OF THE ENVIRONMENTAL ASSESSMENT .....	3-22
3.13	CONSULTATION POST DEVELOPMENTS APPROVAL .....	3-22
<b>4</b>	<b>PROJECT DESCRIPTION</b> .....	<b>S4-3</b>
4.1	PROJECT SUMMARY .....	4-3
4.2	SOUTH EAST OPEN CUT COAL RESOURCE EVALUATION .....	4-7
4.2.1	Licence and Tenement Details	4-7
4.2.2	Previous Exploration and Mining	4-7
4.2.3	Geology	4-9
4.2.4	Coal Geology	4-10
4.2.5	Coal Quality	4-12
4.2.6	Coal Resources and Reserves	4-12
4.3	THE EXISTING ASHTON COAL PROJECT .....	4-12
4.4	THE SOUTH EAST OPEN CUT MINE .....	4-16
4.4.1	Summary of Key Aspects	4-16
4.4.2	Mining Constraints	4-17
4.4.3	Mining Schedule	4-17
4.4.4	Mining Method	4-18

4.4.5	Final Landform and Rehabilitation	4-29
4.4.6	South East Open Cut Infrastructure and Facilities	4-31
4.4.7	Water Management	4-39
4.4.8	Waste Management	4-40
4.4.9	Project Electricity Supply	4-41
4.4.10	Workforce and Working Hours	4-41
4.4.11	Mining Operations Plan	4-42
4.4.12	SEOC Mine Closure	4-42
4.5	PROPOSED MODIFICATIONS TO THE EXISTING ASHTON COAL PROJECT .....	4-42
4.5.1	CHPP and Rail Facilities Throughput	4-42
4.5.2	CHPP Facilities Integration with the South East Open Cut Project	4-43
4.5.3	Disposal of Reject in the South East Open Cut Final Void.	4-43
4.5.4	Mining Rate of the Approved Underground Mine	4-43
4.6	EXISTING STRUCTURES AND UTILITIES .....	4-43
4.6.1	Power Lines	4-43
4.6.2	Existing Buildings	4-45
4.6.3	Optical Fibre	4-45
4.6.4	Telecommunications	4-45
4.7	ROADS AND COMMONS.....	4-46
4.7.1	Site Access	4-46
4.7.2	Road Closures	4-46
4.8	PROJECT DEVELOPMENT SCHEDULE.....	4-48
<b>5</b>	<b>EXISTING ENVIRONMENT AND IMPACT ASSESSMENT _____</b>	<b>S5-9</b>
5.1	INTRODUCTION.....	5-9
5.2	THE ACP ENVIRONMENTAL MANAGEMENT AND MONITORING REGIME .....	5-10
5.2.1	The Safety Health Environment and Community Management System	5-10
5.2.2	ACOL Safety, Health, Environment & Community Policy	5-13
5.2.3	Management Regime	5-13
5.3	CLIMATE .....	5-15
5.3.1	Rainfall and Evaporation	5-15
5.3.2	Temperature and Humidity	5-15
5.3.3	Winds	5-15
5.3.4	Inversions	5-16
5.3.5	Weather Stations	5-16
5.4	LAND USES OF THE SEOC AREA AND NEARBY LANDS .....	5-18
5.4.1	Dwellings and Land Zoning	5-18
5.4.2	Past Land Use	5-18
5.4.3	Existing Land Use	5-18
5.4.4	General Land Use Impacts	5-24
5.4.5	Land Use Impacts from the SEOC	5-24
5.5	AIR QUALITY .....	5-25
5.5.1	Air Quality Criteria	5-25
5.5.2	Existing Air Quality	5-25

5.5.3	Assessment Methodology	5-28
5.5.4	Air Quality Impacts	5-29
5.5.5	Management and Mitigation Measures	5-37
5.6	SPONTANEOUS COMBUSTION.....	5-40
5.6.1	Spontaneous Combustion at the Existing ACP	5-40
5.6.2	Spontaneous Combustion at the SEOC	5-40
5.6.3	Management and Mitigation Measures	5-40
5.7	GREENHOUSE GAS EMISSIONS .....	5-43
5.7.1	Greenhouse Gas Assessment Method	5-43
5.7.2	Greenhouse Gas Emissions Estimates	5-44
5.7.3	Impacts and Conclusion on Greenhouse Gas Emissions	5-44
5.7.4	Management and Mitigation Measures	5-45
5.8	ACOUSTIC ENVIRONMENT .....	5-47
5.8.1	Existing Acoustical Environment	5-47
5.8.2	Noise Criteria	5-48
5.8.3	Noise Assessment Method	5-49
5.8.4	Noise Impacts	5-50
5.8.5	Sleep Disturbance	5-59
5.8.6	Cumulative Mining Noise Levels	5-59
5.8.7	Noise Monitoring	5-61
5.8.8	Management and Mitigation	5-61
5.8.9	Response to Monitoring and Exceedances	5-62
5.9	BLASTING AND VIBRATION.....	5-63
5.9.1	Existing Blast and Vibration Environment	5-63
5.9.2	Blasting and Vibration Criteria	5-63
5.9.3	Blast and Vibration Assessment Method	5-64
5.9.4	Blast and Vibration Impacts	5-64
5.9.5	Blast Monitoring and Response to Exceedance	5-65
5.9.6	Blasting and Vibration Safeguards and Mitigations	5-65
5.10	GROUNDWATER .....	5-67
5.10.1	Assessment Methodology	5-67
5.10.2	Groundwater Investigations	5-68
5.10.3	The Existing Groundwater Environment	5-72
5.10.4	Groundwater Modelling	5-79
5.10.5	Prediction of Groundwater Impacts from the SEOC	5-79
5.10.6	Groundwater Impact Mitigation and Management	5-89
5.11	SURFACE WATER .....	5-92
5.11.1	Assessment Methodology	5-92
5.11.2	The Existing Surface Water Environment	5-92
5.11.3	Conceptual Surface Water Management	5-97
5.11.4	Site Water Balance	5-101
5.11.5	Water Course Re-establishment	5-109
5.11.6	Surface Water Impacts	5-113
5.11.7	Monitoring and Mitigation Measures	5-115

5.11.8	Contingency Response	5-117
5.12	FLOODING.....	5-118
5.12.1	Assessment Methodology	5-118
5.12.2	Existing Flooding Behaviour	5-119
5.12.3	Flooding Impacts	5-119
5.12.4	Mitigation Measures and Safeguards	5-120
5.13	GLENNIES CREEK GEOMORPHOLOGY.....	5-122
5.13.1	Assessment Methodology	5-122
5.13.2	Impacts of the SEOC on Glennies Creek Geomorphology	5-122
5.13.3	Mitigation Measures	5-124
5.14	SOILS, AGRICULTURAL SUITABILITY AND RURAL LAND CAPABILITY.....	5-125
5.14.1	Soil Types	5-125
5.14.2	Rural Land Capability	5-127
5.14.3	Agricultural Suitability of the SEOC Area	5-127
5.14.4	Topdressing Material	5-129
5.14.5	Impacts to Soils and Agricultural Characteristics from the SEOC	5-130
5.14.6	Mitigation and Management of Soils	5-130
5.15	GEOCHEMICAL ASSESSMENT.....	5-134
5.15.1	Assessment Methodology	5-134
5.15.2	Assessment Results	5-135
5.15.3	Summary of Results	5-136
5.15.4	Management and Mitigation Measures	5-136
5.16	FLORA AND FAUNA (TERRESTRIAL ECOLOGY).....	5-137
5.16.1	Assessment Methodology	5-137
5.16.2	Existing Flora and Fauna	5-138
5.16.3	SEOC Ecological Impacts	5-147
5.16.4	Mitigation Measures	5-150
5.17	AQUATIC ECOLOGY.....	5-156
5.17.1	Assessment Methodology	5-156
5.17.2	Existing Aquatic Ecology	5-158
5.17.3	Impacts to Aquatic Ecology	5-163
5.17.4	Indirect impacts to aquatic ecology	5-164
5.17.5	Mitigation Measures	5-165
5.18	VISUAL IMPACT ASSESSMENT.....	5-167
5.18.1	Assessment Methodology	5-167
5.18.2	Existing Visual Character of the Area	5-167
5.18.3	Visual Impact Assessment	5-169
5.18.4	Visual Impact Mitigation Measures	5-178
5.19	ABORIGINAL HERITAGE.....	5-179
5.19.1	Assessment Methodology	5-179
5.19.2	Assessment Findings	5-181
5.19.3	Impacts to Aboriginal Heritage	5-184
5.19.4	Aboriginal Heritage Mitigation and Management	5-185

5.20	EUROPEAN HERITAGE .....	5-187
5.20.1	Assessment Methodology	5-187
5.20.2	Assessment Findings	5-187
5.20.3	European Heritage Sites and Impacts	5-188
5.20.4	European Heritage Mitigation and Management	5-190
5.21	TRANSPORT .....	5-192
5.21.1	Transport Assessment Methodology	5-192
5.21.2	Existing Conditions	5-192
5.21.3	SEOC Traffic Impact Assessment	5-193
5.21.4	Public Transport and School Bus Impacts	5-196
5.21.5	Rail Transport	5-198
5.22	UTILITY SERVICES .....	5-199
5.23	HAZARD AND RISKS .....	5-200
5.23.1	Assessment Methodology	5-200
5.23.2	Results of Assessment	5-200
5.23.3	Risk Reduction Management and Mitigation Measures	5-201
5.24	BUSHFIRE .....	5-203
5.24.1	Existing Bush Fire Setting	5-203
5.24.2	Potential Bushfire Impacts	5-203
5.24.3	Bushfire Mitigation	5-203
5.25	WASTE MANAGEMENT .....	5-204
5.25.1	Existing ACP Waste Management	5-204
5.25.2	Estimates of Waste Generation	5-205
5.25.3	Waste Management Plan	5-206
5.26	ECONOMIC AND SOCIAL ENVIRONMENT .....	5-210
5.26.1	Economic Impact Assessment	5-210
5.26.2	Benefit Cost Analysis	5-215
5.26.3	Local Government Planning Policy (Singleton Council)	5-216
5.26.4	Attributes of Camberwell Village	5-217
5.26.5	Potential Risks and Impacts to Camberwell Village	5-218
5.26.6	Community Survey's	5-219
5.26.7	Maintaining Camberwell Village	5-223
5.27	SUMMARY OF AIR QUALITY AND NOISE PROPERTY ACQUISITIONS.....	5-228
5.27.1	Findings of the Independent Review of Cumulative Impacts on Camberwell Village	5-231
5.28	REHABILITATION AND FUTURE LAND USE .....	5-232
5.28.1	Rehabilitation Experience at the NEOC	5-232
5.28.2	Rehabilitation of the South East Open Cut	5-232
5.28.3	Rehabilitation Stages	5-235
5.28.4	Offsets and Revegetation	5-238
5.28.5	Future Land Use	5-238
5.28.6	Connectivity	5-239
5.29	MINE CLOSURE .....	5-242
5.30	IMPACTS AND MANAGEMENT .....	5-246

<b>6</b>	<b>DRAFT STATEMENT OF COMMITMENTS</b>	<b>S6-3</b>
6.1	INTRODUCTION	6-3
6.2	AN INTEGRATED MINING COMPLEX	6-3
6.3	OPERATING LIMITS, TIMES AND CRITERIA	6-3
6.4	MANAGEMENT AND OFFSET MEASURES	6-4
6.4.1	Land Acquisition	6-4
6.4.2	Air Quality	6-4
6.4.3	Greenhouse Gas Emissions	6-5
6.4.4	Noise & Blasting	6-6
6.4.5	Groundwater	6-7
6.4.6	Surface Water	6-7
6.4.7	Flooding	6-8
6.4.8	Soils	6-9
6.4.9	Acid Rock Drainage	6-9
6.4.10	Flora and Fauna	6-9
6.4.11	Flora and Fauna Offsets	6-10
6.4.12	Aquatic Ecology	6-11
6.4.13	Visual Impacts	6-11
6.4.14	Aboriginal Heritage	6-12

## Volume 2 List of Plans

The Volume 1 main text contains the figures listed below, on each figure there is a reference to a corresponding A3 plan contained within Volume 2.

Volume 2 Plan Number	Title	Volume 1 Figure Number
Plan 1	Location of the Ashton Coal Project and South East Open Cut	Figure 1.1
Plan 2	Landownership of the South East Open Cut area	Figure 1.2
Plan 3	Landownership of the Camberwell Village	Figure 1.3
Plan 4	Proposed SEOC general arrangement	Figure 4.1
Plan 5	Existing Ashton Coal Project and Proposed SEOC, General Arrangement and Topography	Figure 4.2
Plan 6	Mining Tenements	Figure 4.3
Plan 7	Cross sections of the SEOC illustrating relevant stratigraphy	Figure 4.4
Plan 8	The existing Ashton Coal Project general arrangement	Figure 4.5
Plan 9	Proposed mining progression plan for Year 1 of the SEOC	Figure 4.6
Plan 10	Proposed mining progression plan for Year 3 of the SEOC	Figure 4.7
Plan 11	Proposed mining progression plan for Year 5 of the SEOC	Figure 4.8
Plan 12	Proposed mining progression plan for Year 7 of the SEOC	Figure 4.9
Plan 13	Proposed mining progression plan for Year 9 of the SEOC tailings deposition	Figure 4.10
Plan 14	Proposed final landform, after tailings storage is capped Year 18, approximately 2028	Figure 4.11
Plan 15	Conceptual cross section of proposed levee.	Figure 4.12
Plan 16	Cross sections of the proposed SEOC environmental bund and out of pit emplacement.	Figure 4.13
Plan 17	Proposed office and workshop area facilities layout	Figure 4.14
Plan 18	Cross sections of the proposed office and workshop facilities	Figure 4.15
Plan 19	Proposed ROM Coal Facility	Figure 4.16
Plan 20	Cross sections of the proposed ROM Coal Facility	Figure 4.17
Plan 21	Conceptual design sections and elevations of key aspects of the conveyor network	Figure 4.18
Plan 22	Existing and proposed electrical and utility easement options	Figure 4.19
Plan 23	Local roads, commons and road closures	Figure 4.20
INTEXT	Anticipated Project Construction Schedule (from Figure 4.22)	Figure 4.21
Plan 24	Anticipated Project Development Schedule	Figure 4.22
Plan 25	The existing ACOL monitoring network for meteorology, air and noise.	Figure 5.1
Plan 26	Land use zoning and dwellings surrounding the SEOC Project.	Figure 5.2
Plan 27	The SEOC project area overlain on an aerial photograph taken in 1958.	Figure 5.3
Plan 28	Year 1 - Predicted cumulative annual average PM10 emissions.	Figure 5.4
Plan 29	Year 3 - Predicted cumulative annual average PM10 emissions.	Figure 5.5
Plan 30	Year 5 - Predicted cumulative annual average PM10 emissions.	Figure 5.6
Plan 31	Year 7 - Predicted cumulative annual average PM10 emissions.	Figure 5.7
Plan 32	Year 1 - Predicted Noise Contours - LAeq(15 minute) - West-South-West	Figure 5.8
Plan 33	Year 3 - Predicted Noise Contours - LAeq(15 minute) - West-South-West	Figure 5.9
Plan 34	Year 5 - Predicted Noise Contours - LAeq(15 minute) - Inversion	Figure 5.10
Plan 35	Year 7 - Predicted Noise Contours - LAeq(15 minute) - Inversion	Figure 5.11
Plan 36	Exploration drilling and investigation locations.	Figure 5.12

Plan Number	Title	Figure Number
Plan 37	Groundwater and Surface Water Monitoring Sites.	Figure 5.13
Plan 38	Groundwater levels in the alluvium/ colluvium in November 2008.	Figure 5.14
Plan 39	Glennies Creek Alluvium/ Colluvium Groundwater Salinity Contours.	Figure 5.15
Plan 40	Predicted mine inflow rates.	Figure 5.16
Plan 41	Predicted drawdowns in the Upper Lower Liddell seam in Year 7 at the completion of mining.	Figure 5.17
Plan 42	Predicted drawdowns in the Upper Lower Liddell seam 100 years after mining ceases.	Figure 5.18
Plan 43	Predicted drawdowns in the Hebden seam in Year 7 at the completion of mining.	Figure 5.19
Plan 44	Predicted drawdowns in the Hebden seam, 100 years after mining ceases.	Figure 5.20
Plan 45	Predicted drawdown impacts in the alluvium /colluvium at Year 7.	Figure 5.21
Plan 46	Base flow impacts to Glennies Creek.	Figure 5.22
Plan 47	Local unnamed tributaries, surface water and aquatic sites in the SEOC Project Area.	Figure 5.23
Plan 48	Water management system for the Ashton Coal Project, including the SEOC.	Figure 5.24
Plan 49	Conceptual water management plan for Year 1 of the SEOC.	Figure 5.25
Plan 50	Conceptual water management plan for Year 3 of the SEOC.	Figure 5.26
Plan 51	Conceptual water management plan for Year 5 of the SEOC.	Figure 5.27
Plan 52	Conceptual water management plan for Year 7 of the SEOC.	Figure 5.28
Plan 53	Conceptual water management plan for Year 9 of the SEOC.	Figure 5.29
Plan 54	Conceptual water management plan for Year 18 of the SEOC.	Figure 5.30
Plan 55	Conceptual cross section of the reconstructed Tributary 4.	Figure 5.31
Plan 56	Predicted 5, 20 and 100year ARI flood events and flood storage loss from the SEOC Project.	Figure 5.32
Plan 57	Conceptual model of geomorphic processes for Glennies Creek adjacent to the SEOC.	Figure 5.33
Plan 58	Soil type boundaries of the South East Open Cut project area.	Figure 5.34
Plan 59	Land capability and agricultural suitability of the South East Open Cut project area.	Figure 5.35
Plan 60	Vegetation communities of the SEOC Project Area.	Figure 5.36
Plan 61	Threatened species and hollow bearing trees within the SEOC area.	Figure 5.37
Plan 62	Location of selected viewpoints for the visual impact assessment.	Figure 5.38
INTEXT	Degree of visual impact during the daytime from the SEOC.	Figure 5.39
INTEXT	Degree of visual impact during the night from the SEOC.	Figure 5.40
Plan 63	Results of the Aboriginal survey and the overall site significance.	Figure 5.41
Plan 64	Identified European heritage sites of low, moderate or high local significance.	Figure 5.42
Plan 65	Conceptual design for the proposed primary SEOC access intersection with the New England Highway.	Figure 5.43
INTEXT	Average annual rate of population change, 1996-2006.	Figure 5.44
INTEXT	Broad industry structure of the workforce area and State, 2006 Proportion of total employment	Figure 5.45
INTEXT	Detailed industry breakdown of the workforce area, 1996 and 2006 Proportion of total employment.	Figure 5.46

### List of Appendices

Appendices	Study	Consultant	Volume
Appendix 1A	Land Development Schedule		1
Appendix 1B	Director General's Requirements		1
Appendix 2	Copy of ACP Development Consent and EPL		1
Appendix 3	Air Quality and Greenhouse Gas Assessments	PAE Holmes	3
Appendix 4	Noise and Vibration Impact Assessment	Spectrum Acoustics	3
Appendix 5	Groundwater Assessment	Aquaterra	3
Appendix 6	Surface Water Management Strategy	WorleyParsons	4
Appendix 7	Glennies Creek Geomorphology	WorleyParsons	4
Appendix 8	Soils, Agricultural Suitability and Land Capability	Department of Lands – Soil Conservation Service	4
Appendix 9	Geo-Chemical Assessment	Environmental Geochemistry International	4
Appendix 10	Flora and Fauna Assessment	Environmental Resource Management Australia	4
Appendix 11	Aquatic Ecology	Marine Pollution Research Pty Limited	4
Appendix 12	Visual Impact Assessment	O'Hanlon Design Pty Ltd	5
Appendix 13	Aboriginal Heritage	Insite Heritage	5
Appendix 14	European Heritage	Heritas Architecture	5
Appendix 15	Transport	Sinclair Knight Merz	5
Appendix 16	Hazard and Risks	AECOM	5
Appendix 17	Social and Economic Environment	Hunter Valley Research Foundation	5
Appendix 18	Benefit Cost Analysis	Gillespie Economics	5
